This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

TO THE PUBLIC:

The work of compiling this Directory was undertaken in the first place at the earnest solicitation of a number of the leading business men of Helena. Since then the original scope of the work has been enlarged so as to embrace the entire Territory, making it available as an Advertising Directory to every house that now does business, or wishes to extend its business in this Territory. Every effort has been made to furnish a reliable work.

A Common-sense Remedy.

SALICYLICA.

No More Rheumatism, Gout or Neuralgia.

IMMEDIATE RELIEF WARRANTED.

PERMANENT CURE GUARANTEED.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET:

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

Salicylica is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions, will not eradicate these diseases, which are the result of the poisoning of the blood with Uric Acid.

Salicylica works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. more cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout,** and **Neuralgia.** The most intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded.

Thousands of testimonials sent on application.

$1 a Box. 6 Boxes for $5.

Sent free by mail on receipt of money.

ASK YOUR DRUGGIST FOR IT.

But do not be deluded into taking imitations or substitutes, or something recommended as "just as good." Insist on the genuine, with the name of **WASHBURNE & CO.** on each box, which is guaranteed chemically pure under our signature, an indispensable requisite to insure success in the treatment. Take no other, or send to us.

WASHBURNE & CO., Proprietors,

MONITOR PLOW WORKS,

MINNEAPOLIS, MINNESOTA.

Manufacturers of the Celebrated

Monitor Plows, Breakers, Sulky Plows, Sulky Rakes and Cultivators,

Having had 23 years experience in making Plows and Breakers for the Northwest, and built up a trade second to none in rapid and substantial growth, we now take pleasure in announcing that we are greatly enlarging our capacity for 1884, and making substantial improvements in our facilities for supplying the best of goods at the lowest possible price.

THE MONITOR PLOW.—We use only Solid Steel for Shares and Moldboard. No iron back or iron centre steel in ours, the objection being that in grinding and polishing there is very little Steel left, and plows cannot be durable. The Monitor is the Lightest Draft, Scours Best, and is Stronger and More Durable than any other Plow made.

THE MONITOR HAY RAKE.—Double Coil, Oil Tempered Teeth, Adjustable Lever, the Largest and Best Wheels in Use, Best Made and Best Finished Rakes.

We have secured control of the Celebrated MALTA WALKING AND RIDING CULTIVATORS for the entire Northwest. These Cultivators have been in the field for many years, and have led all others for effective work.

The BLOUNT WAGON, FARMERS' FAVORITE DRILL, Etc., Etc. The MONITOR HAND CORN PLANTER—Light, Simple, Strong, Durable, and Plants Perfectly Uniform. ROAD PLOWS AND SCRAPERS A SPECIALTY. Send for circulars and references of those who have been using our goods for past twenty years.
